WHY IS EDEN CHRISTIAN ACADEMY A GREAT EXPERIENCE FOR YOUR FAMILY?

When we were first investigating educational choices as young parents, we were interested in more than just academics – even though academics were very important to us.

As a former public school teacher, I (Sarah) was aware of the growing number of options becoming available on the educational landscape, and as leaders in student ministry, we both knew our choice had to reinforce the values we were teaching our children at home.

We were happy with Eden’s exceptional academic ranking on the state and national levels. And, we knew

that our kids would learn in an environment that would allow for their spiritual formation and the opportunity to be exposed to strong, God-honoring leadership in all areas of their lives.

Eden provides that environment and leadership in the classroom, on the playground and even in extra-curricular activities. And, it aligns with what they learn at home and church.

HOW WOULD EDEN BE GREAT FOR OTHER PARENTS?

Nineteen years later, as our family celebrates our fourth Eden graduate, we are even more committed to the Eden experience. The foundation children receive at Eden cannot be matched.

Someone told us long ago that we just needed to “visit the school and walk the halls. The difference is obvious.” They were right. We would encourage any parent to schedule a visit - Eden is worth it. ■
